

We spend a lot of time with our student athletes. We take pride in ensuring our name is recognized and praised upon with every athlete we assist. Unlike other recruiting agencies, we are extremely visible, available and at a fraction of the cost. We will over communicate with the athlete to ensure they are meeting and exceeding all the next and appropriate steps within our process. There is a reason why we have a 100% success rate. We choose athletes that not only we feel can play college sports but has the academic focus and GPA that most importantly will get them recruited. Our average client return on investment is +\$25,000!

Our Process

- Initial call with student athlete and their family
- Assist athlete with the “preparation stage” Discuss geographical interest and work on a custom excel sheet to prepare and track all recruiting notes that are visible to the student athlete, their family and us.
- Assist with Highlight videos. We create professional highlight videos. Trimming all your film, adding player spotlight, adding professional title and end pages to your created highlight videos.
- Create ads for the athlete’s social media for upcoming college showcases, college visits, offers, and commitments.
- Assist with EVERY email, phone call, visit, negotiate and find academic scholarships, grants, and athletic scholarships. We WANT the athlete to involve us in every step of the recruiting process.

Optional Additional Package- We create a custom website for the student athlete. We purchase a custom domain and customize their own website. This allows the student athlete to share a website link with college coaches that has all their highlight videos on the first page, their upcoming schedule, professional images, their stats, GPA/education information and contact information. Place your website domain on all your social media profiles (twitter) and create your own YouTube channel to store your highlight videos and easily drag and drop them onto your new website. This website is so easy for the student athlete to update/edit. This makes college coaches find you and look at everything with a simple click of a link to your OWN website.

Set up a FREE introductory call and find out more about our recruiting process and how you and your family can be confident in this small investment allowing us to help the athlete and your family fulfil a dream!
